GLUTEBUILDER® SELECTORIZED

# Glute Squat

## GSL0627

Developed in partnership with Glutebuilder and exclusively available from Precor, the Glutebuilder Selectorized line delivers targeted glute, leg, and hip training equipment in a space-efficient design. The precision biomechanics guide exercisers through a controlled, consistent motion path designed to maximize muscle engagement and support proper joint alignment. The multiple adjustment points and integrated weight stack allow exercisers to personalize fit and resistance, creating an approachable experience focused on lower-body training.

The Selectorized Glute Squat combines a natural, linear movement path with an extremely low starting resistance for an approachable training experience across a wide range of exercisers. Adjustable positioning and an oversized footplate support multiple squat and lower-body variations, while a progressive resistance profile provides smooth, manageable resistance throughout the movement.

GLUTEBUILDER® SELECTORIZED

# Glute Squat

## GSL0627

## Product Features

### PRECISION BIOMECHANICS

A four-bar linkage creates a natural, linear movement path that isolates movement at the hip joint and allows exercisers to emphasize either the glutes or quadriceps through different exercise setups.

### PERSONALIZED RANGE OF MOTION

Adjustable shoulder pads allow exercisers to set their starting position and range of motion based on their body and training needs. The shoulder pads remain parallel throughout the movement to support consistent positioning.

### LOW STARTING RESISTANCE

A starting resistance of just 15.4 lb / 7 kg makes the movement approachable while providing flexibility for single-leg exercises and other training variations. Pin-selected resistance allows quick, straightforward adjustments.

### ADJUSTABLE FOOTPLATE

An oversized, non-slip footplate adjusts to three angles to accommodate different exercise setups and training emphases. Gas-assisted adjustment makes repositioning smooth and easy

### EXERCISE VARIETY

Supports glute-focused and quad-focused squats, single-leg squats, lunges, good mornings, and step-ups, expanding training options beyond a traditional squat station.

### APPROACHABLE, SPACE-EFFICIENT DESIGN

An integrated weight stack simplifies setup and resistance changes, while the compact footprint makes targeted glute training easier to incorporate into the strength floor.

## Specifications

**Dimensions (L x W x H):** 78 x 45 x 57 in / 192 x 115 x 145 cm
**Weight Stack Tower Height:** 58 in / 148 cm
**Product Weight:** 299 lb / 136 kg
**Weight Stack:** 280 lb / 127 kg
**Frame and Finish:** Heavy-duty steel tubing is welded in all structural areas to withstand the most demanding training environments. Powder coated frame.
**Warranty:** Visit www.precor.com for warranty terms.

## Color Options*

**Frame**

- Black Pearl
- Gloss Metallic Silver
- Gloss White**
- Flame Red**

**Upholstery**

- Black

**Additional Upholstery Options****

- Lite Grey
- Graphite
- Slate
- American Beauty
- Candy Apple
- All Spice
- Bucksuede
- Burgundy
- Royal Blue
- Blue Jay
- Chocolate
- Hunter Green

*Custom frame colors are available, subject to minimum order quantities and extended lead times.

**Additional lead time applies.

• Additional upholstery options may have longer lead times. Please contact a sales representative.
• Colors may vary.
