

CARDIO

Elliptical Fitness Crosstrainer®

EFX® 635

Product features

ADJUSTABLE CROSSRAMP®

Our patented CrossRamp® technology allows exercisers to isolate lower-body muscle groups with adjustable incline angles ranging from 10 to 35 degrees. Exercisers can easily target glutes, quadriceps and calves to create a well-rounded workout tailored to their fitness goals. Large open pedals, a low step-over height, and an accessible 10-degree starting angle make it simple for beginners to get started.

P31 CONSOLE

A LED console that works harder for you, your exercisers and your servicers. Exercisers will enjoy the well-placed resistance and incline controls, as well as accessible workout options. Supercharge your servicers' efficiency by providing detailed equipment status information, reducing downtime on your fitness floor.

HANDLEBARS

The moving handlebars deliver a full-body workout with every session. Fixed grips provide stability and confidence for exercisers focused on lower-body training, making the EFX adaptable for all fitness levels.

STEP-UP HEIGHT & PEDAL SPACING

The low step-up height improves accessibility and the optimised pedal spacing provides a more natural and comfortable feel.

COVERED REAR DRIVE HOUSING

Experience easy maintenance with a covered rear drive housing that enables quick access for cleaning and service.

Specifications

Dimensions (L x W x H): 218 x 71 x 173 cm

Product weight: 147 kg

Max. user weight: 159 kg

Step-up height: 20 cm (pedal at lowest point)
