

CARDIO

Elliptical Fitness Crosstrainer®

EFX® 885

Product Highlights

The EFX® 885 with Converging CrossRamp® combines essential reliability and ease of use with a natural, low-impact stride to add value to your facility. Design enhancements ensure easy cleaning and maintenance for you, while the unique adjustable Converging CrossRamp® technology and upper-body moving handlebars deliver a total body workout for your exercisers.

Product features

CONVERGING CROSSRAMP

Our patented converging footpath design and incline adjustments between 10 and 35 degrees, along with 20 levels of resistance, provide exercisers with a challenging workout and a more natural-feeling stride. Exercisers can effortlessly target glutes, quadriceps and calves to create a well-rounded workout tailored to their fitness goals. Large open pedals, a low step-over height and an accessible 10-degree starting angle make it simple for beginners to get started, while higher inclines and resistance challenge advanced exercisers.

HANDLEBARS

The moving handlebars deliver a full-body workout with every session. Fixed grips provide stability and confidence for exercisers focused on lower-body training, making the EFX adaptable for all fitness levels.

P84 TOUCHSCREEN CONSOLE

The P84 console features a brilliant 16-inch touchscreen that combines performance, entertainment and workout variety. Exercisers can enjoy seamless wireless casting that provides access to thousands of third-party fitness and media apps. They can also stream content through fully integrated PlutoTV, Netflix and YouTube apps – putting the content they want right at their fingertips.

COVERED REAR DRIVE HOUSING

Maintenance is straightforward with a covered ramp and rear drive housing, providing quick access for cleaning.

ACTIVE STATUS LIGHT

Alerts staff at a glance when the EFX requires maintenance or servicing.
