

INDOOR CYCLING

Stages Cycling

SC2

Product Highlights

Designed for the world's most popular rhythm classes, the Stages Cycling SC2 is the bike for the studio that wants to take advantage of the smoothest ride and make their instructors shine. Recognised by the world's leading boutique studios, this sets the standard for rhythm cycling.

Product features

DESIGNED FOR THE BOUTIQUE EXPERIENCE

Preferred by leading boutique studios worldwide, featuring rhythm handlebars and a stylish, contemporary design, it offers an engaging ride experience that keeps members coming back.

SPRINTSHIFT

SprintShift's unique three-stage lever allows for rapid, macro-level resistance changes — ideal for HIIT and interval workouts. Riders can instantly increase or decrease resistance without endlessly turning the dial, while still maintaining the ability to fine-tune with micro-adjustments.

ERGONOMIC DESIGN FOR EVERY RIDE

Designed with Stages' signature RoadBar™ handlebars, inspired by road bike geometry to deliver a natural, performance-driven riding position. Combined with the StagesFit™ adjustment system, riders can easily fine-tune their setup for optimal comfort and control.

LOW MAINTENANCE, HIGH RELIABILITY

Features the Gates® Carbon Drive CarbonGlyde™ belt and a magnetic resistance system, delivering a smooth, quiet ride with no chains, pads or lubrication required — resulting in reduced maintenance and increased equipment uptime for fitness facilities.

Specifications

Dimensions (L x W): 125 x 62 cm

Product weight: 43 kg

Max. user weight: 158 kg

Rider Fit Range: 147–208 cm
