

Flat Bench

DBR0101

The Discovery Strength Flat Bench is designed to optimise exerciser support, while also allowing for free range of movement for a variety of weight-bearing exercises.

Engineered for biomechanical precision and built to withstand high-volume use, Discovery Benches and Racks provide a robust solution for strength training environments. Each piece combines intelligent design with functional durability to empower exercisers of all levels to train with confidence.

Product features

WEAR GUARDS

Replaceable wear guards on the rear stabiliser leg help protect the frame and provide a non-slip surface for spotters.

PAD DESIGN

The pad design enhances exerciser stability while allowing for an unencumbered range of motion.

OPTIMALLY POSITIONED BENCH HEIGHT

The ergonomic bench height design helps exercisers stabilise the lower back, increasing core support and providing greater comfort during lifts.

INTEGRATED TRANSPORT WHEELS

Covered wheels make the bench easily movable and rubber feet ensure that the bench will stay in place while in use.

PAD BACKING PLATES

Injection moulded pad backing plates help protect the edges from wear and tear.

Specifications

Dimensions (L x W x H): 133 x 75 x 38 cm

Product weight: 29 kg

Max. user weight: 159 kg

Max. lift load capacity: 182 kg

Frame and finish: Heavy-duty steel tubing is welded in all structural areas to withstand the most demanding training environments. Powder-coated frame.

Warranty: Visit www.precor.com for warranty terms.
