

Power Rack

DBR0610

The foundation of any facility, the Discovery Strength Power Rack, is the perfect tool for seasoned lifters and those new to strength training. The enhanced functional capability of the Power Rack allows for the use of bands, chains, torso trainers, battle ropes, suspension fitness training and more, along with traditional Power Rack exercises.

Engineered for biomechanical precision and built to withstand high-volume use, Discovery Benches and Racks provide a robust solution for strength training environments. Each piece combines intelligent design with functional durability to empower exercisers of all levels to train with confidence.

Product features

STORAGE

The ten weight storage horns neatly accommodate bumper plates. The Olympic Bar and functional apparatus storage is conveniently positioned to enhance accessibility.

DUAL CHIN-UP/PULL-UP HANDLES

Dual Chin-Up and Pull-Up Handles with step-up and weight-assist band hooks allow for numerous chin-up and pull-up opportunities for a wide range of exercisers.

SECURE AND STURDY

The heavy-duty, fully welded dual-pin system on the bar catches and safety rails provides maximum durability, stability and ease of adjustment. Both feature quick changeover, high impact, polyurethane covers and inserts to protect all wear surfaces from metal-on-metal contact, preserving the paint finish of the Power Rack.

STRAIGHT BAR

A smooth, straight pull-up/chin-up bar allows for kipping style pull-ups, chin-ups and muscle-ups, as well as a convenient anchor point for suspension fitness training apparatuses.

OPTIONAL BAND PEGS

Pegs allow for the use of loop style bands to add progressive resistance to barbell training movements.

RUBBERISED STEP-UPS

Convenient steps allow for easier access to the chin-up/pull-up stations and are dipped to enhance durability and provide a slip-resistant surface. The step is angled to create a convenient Olympic Bar storage point and catch for performing deadlift exercises. The round gusset beneath the step-up allows for the anchoring of battle ropes.

Specifications

Dimensions (L x W x H): 206 x 160 x 250 cm

Product weight: 278 kg

Max. lift load capacity: 363 kg

Max. storage weight: 817 kg

Recommended plates: 2 x 2.5 kg, 4 x 5 kg, 4 x 10 kg, 4 x 15 kg, 6 x 20 kg

Optional Accessories: Band Peg Kit, Combo Rack Connector Kit, Side-by-Side Connector Kit, Dip Station, Torso Trainer, Reverse Bar Catches, Lifting Platform (10 cm thick; Platform: 249 cm W x 183 cm D; Insert: 102 cm W x 175 cm D), Optional custom logo for lifting platform is available at an additional cost.

Frame and finish: Heavy-duty steel tubing is welded in all structural areas to withstand the most demanding training environments. Powder-coated frame.
