

Vertical Knee-up

DBR0702

The Discovery Strength Vertical Knee-Up supports a range of core and upper body exercises. The contoured elbow pads, hand grips and back pad provide stability for knee-up exercises and an additional hand grip allows for dip exercises.

Engineered for biomechanical precision and built to withstand high-volume use, Discovery Benches and Racks provide a robust solution for strength training environments. Each piece combines intelligent design with functional durability to empower exercisers of all levels to train with confidence.

Vertical Knee-up

DBR0702

Product features

OPEN FRAME

Secondary tubing and a large base footprint provide optimised stability in both core and upper-body exercise modalities.

WEAR GUARDS

Oversized, bolt-on, non-skid wear guards help exercisers get in and out of the Vertical Knee-Up with confidence.

PADS AND HAND GRIPS

The contoured elbow pads, hand grips and back pad provide stability for knee-up exercises and additional hand grips allow for dip exercises.
