

GLUTEBUILDER® SELECTORIZED

Hip Thrust Elite

GSL0612

Developed in partnership with Glutebuilder and exclusively available from Precor, the Glutebuilder Selectorized line delivers targeted glute, leg, and hip training equipment in a space-efficient design. The precision biomechanics guide exercisers through a controlled, consistent motion path designed to maximize muscle engagement and support proper joint alignment. The multiple adjustment points and integrated weight stack allow exercisers to personalize fit and resistance, creating an approachable experience focused on lower-body training.

The Selectorized Hip Thrust Elite delivers stable, controlled glute training with a setup that supports proper positioning and consistent performance. An oversized angled bench with integrated shoulder pads provides secure back support, while an angled footplate encourages optimal hip mechanics and glute activation. Adjustable bench height accommodates a wide range of exercisers, allowing for proper positioning and customized range of motion.

Hip Thrust Elite

GSL0612

Product Features

PRECISION BIOMECHANICS

An angled footplate supports natural hip mechanics to improve glute activation while reducing lower-back involvement and keeping tension focused on the glutes throughout the movement.

STABLE, SUPPORTED POSITIONING

An oversized angled back pad and integrated shoulder pads create a secure, supported position that minimizes shifting and helps maintain proper alignment throughout the movement.

PERSONALIZED FIT

Adjustable back and shoulder pads allow exercisers to adjust positioning based on body size and setup preference. A multi-position belt strap further refines fit and starting position to support consistent, comfortable execution.

SEAMLESS RESISTANCE ADJUSTMENT

A side-positioned weight stack allows exercisers to quickly change resistance without leaving the exercise position, supporting efficient, uninterrupted training.

Specifications

Dimensions (L x W x H): 77 x 72 x 51 in / 196 x 183 x 130 cm

Weight Stack Tower Height: 58 in / 148 cm

Product Weight: 487 lb / 221 kg

Weight Stack: 280 lb / 127 kg (standard); 380 lb / 172 kg (heavy)

Frame and Finish: Heavy-duty steel tubing is welded in all structural areas to withstand the most demanding training environments. Powder coated frame.

Warranty: Visit www.precor.com for warranty terms.

Color Options*

Frame

Black Pearl Gloss Metallic Silver
