

## CARDIO

# Treadmill

## TRM 781

### Product Highlights

The TRM 781 combines essential reliability and ease-of-use with touch screen technology at a value just right for you. This treadmill is designed to optimise performance and maintenance while providing a comfortable and effective workout for your exercisers. The simple, clean design holds up under heavy commercial use, ensuring your investment will last into the future.

### Product features

#### P84 TOUCHSCREEN CONSOLE

The P84 console features a brilliant 16-inch touchscreen that combines performance, entertainment and workout variety. Exercisers can enjoy seamless wireless casting that provides access to thousands of third-party fitness and media apps. They can also stream content through fully integrated PlutoTV, Netflix and YouTube apps—putting the content they want right at their fingertips.

#### MOTOR DRIVE SYSTEM

The motor drive system improves performance, efficiency and reliability through improved internal cooling, a wider operating range, and unique input current averaging to identify more precisely when a running belt requires replacement.

#### INTEGRATED FOOTPLANT TECHNOLOGY™

Recognises exercisers' natural foot speed and matches every stride for an ultra-smooth feel that enhances their workout experience.

#### GROUND EFFECTS® IMPACT CONTROL SYSTEM

Our patented system combines ideal cushioning, support and stability for exercisers. Precor decks are designed to provide more absorption in the front where exercisers' feet hit the belt and added rigidity at the back for a firm push-off.

#### ACTIVE STATUS LIGHT

To enhance uptime, an external status light informs you and your staff at a glance of the operating condition of your treadmill and when to perform life-extending maintenance.
