## TRM 895

### Product Highlights

The TRM 895 adds value to your facility by combining essential reliability and ease-of-use with a feeling that's personalised to every step. Thoughtful design and performance deliver an exerciser experience that feels natural. The TRM 895 makes it easier for you to provide a customer-focused environment. Quiet and efficient, we've streamlined the assembly, and included diagnostic tools to increase uptime and to keep operating costs down.

### Product features

#### P94 TOUCHSCREEN CONSOLE

The P94 console features a brilliant 22-inch touchscreen that combines performance, entertainment and workout variety. Exercisers can enjoy seamless wireless casting that provides access to thousands of third-party fitness and media apps. They can also stream content through fully integrated PlutoTV, Netflix and YouTube apps – putting the content they want right at their fingertips.

#### POWER FACTOR CORRECTION (PFC)

The motor drive system is optimised with Power Factor Correction (PFC) for increased efficiency, improved performance and reduced energy consumption by up to 30%.

#### INTEGRATED FOOTPLANT TECHNOLOGY™

Integrated Footplant Technology recognises the exerciser's natural foot speed and matches every stride for an ultra-smooth feel that enhances the workout experience.

#### GROUND EFFECTS® IMPACT CONTROL SYSTEM

This patented system combines ideal cushioning, support and stability for exercisers. Precor treadmill decks are designed to absorb more impact in the front where exercisers' feet hit the belt. Added rigidity at the back of the belt allows for a firm push-off.

#### ACTIVE STATUS LIGHT

To enhance uptime, an external status light informs you and your staff at a glance of the operating condition of your treadmill and when to perform life-extending maintenance.

### Specifications

**Dimensions (L x W x H):** 211 x 89 x 178 cm

**Product weight:** 195 kg

**Max. user weight:** 181 kg

**Power:** US & Canada: 120V/20A individual branch circuit; International: 240V, applicable country-specific power cable

**Total workouts:** 23

**Motor Drive:** Capable of 4HP operation with 8HP peaks

**Speed range:** 0.8 – 25.5 km/h

**Elevation range:** - 3% to 15% incline in 0.5% increments
